

Tarifon - call accounting for your PBX

Call accounting by extension and department. Runs on an ordinary PC in your office, not in the cloud. Deployed in under 10 minutes.

Accurate rating

Your operator's price lists, VAT, invoice-style rounding, free minutes and monthly fees. Calls are rated by the trunk they left through – GSM gateway, VoIP or landline.

Reports and insights

Billing per extension, department and trunk. Scheduled monthly e-mail reports, Excel export, printable statements, cost charts, per-extension limits and a comparison with another carrier's price list.

Your data stays with you

Tarifon runs on an ordinary PC in your office, not in the cloud. Phone numbers never leave your network – easy GDPR compliance including retention and deletion of records, three privacy levels per extension and number masking.

Deployed in under 10 minutes

One installer, a setup wizard and browser access for the whole company with no per-user surcharge. Interface in 6 languages.

Supported PBX systems

3CX V20	XAPI (AI Edition, 8SC+, formerly Enterprise) or CDR socket – including Hosted by 3CX instances; over XAPI also automatic blocking of an abused extension
Yeastar P-Series	API – with automatic import of extensions and trunks; automatic blocking of an abused extension
FreePBX / Asterisk	direct CDR database access (MySQL)
Grandstream UCM	CDR interface
Unify OpenScope Business / Telekom Octopus F X	Call Charges output over LAN
Alcatel-Lucent OXO Connect, Panasonic KX-NS, Avaya IP Office	SMDR output

What's included

- ✓ Perpetual licence – no monthly fees
- ✓ Web interface for unlimited users
- ✓ Billing per extension, department and trunk
- ✓ Scheduled e-mail reports (Excel attachment)
- ✓ Private-call marking with monthly payroll statement
- ✓ Rebilling calls to tenants – cost and billed price side by side
- ✓ Price list comparison – what you would pay with another carrier
- ✓ Collection over the network straight from the PBX, no serial cable or buffer
- ✓ Protection against PBX toll fraud with e-mail alerts
- ✓ Changing the PBX type or the number of extensions within a tier
- ✓ Per-extension limits with alerts
- ✓ Interface and documentation in 6 languages
- ✓ Sample operator price lists SK / CZ / PL / DE – edit them yourself in CSV
- ✓ Updates while maintenance is active (first year included)

Licence price

up to 24 extensions	249 €
up to 72 extensions	449 €
up to 200 extensions	749 €
201 – 500 extensions	1 190 €

Perpetual licence. The first year of updates is included, further maintenance costs 20% of the current licence price per year. Prices exclude VAT; over 500 extensions by agreement.
